Chord diagrams: G, D, C, Em, Am, Bm, B7, E, A

```
       D
When I think back on all the crap I learned in high school
Em            A            D Em A
It's a wonder I can think at all
             D                           G
And though my lack of education hasn't hurt me none
Em           A            D
I can read the writing on the wall
```

```
     G B7 E
Kodachrome
              Am         D
You give us those nice bright colors
             G      C
You give us the greens of summers
          A       D           G B7 E
Makes you think all the world's a sunny day
       Am     D
I got a Nikon camera
           G      C
I love to take a photograph
          A       D          G Bm Em A
So Mama, don't take my Kodachrome away
```

```
        D                              G
If you took all the girls I knew when I was single
      Em                A           D Em A
And brought them all together for one night
             D                     G
I know they'd never match my sweet imagination
Em              A                  D
And everything looks worse in black and white
```

```
        G         Bm           Em
